

COVID-19 BIMAP ADVISORY - 2:

On Wednesday, March 18th, 2020, the Government of Barbados declared the early closure of the term for Primary and Secondary Schools across the island.

Please take note of the following:

◆ END OF TERM (BIMAP)

Saturday, March 21st, 2020 will be the official end of face-to-face contact.

If a student is uncomfortable visiting the Institute at this time for any of their 2 or 4 hour class sessions, please **stay away**, but kindly contact your tutor or the Training Department to inform of your decision.

To ensure the safety of persons working on and visiting the premises, BIMAP will continue to maintain all enhanced sanitary practices now in effect.

◆ REVISION WEEK

March 23rd to 28th

During this period, tutors should upload materials to the Moodle platform to assist students in the revision for exams. All efforts will be made to ensure that tutors and students can remain in contact with each other to facilitate course topics and examinations queries.

◆ EXAMINATION WEEK

March 30th to April 03rd

Please report to the Institute for your examination as currently scheduled.

Social distancing will be practised in all examinations.

Should the current situation change, and Government gives any new directives, BIMAP will adjust accordingly.

Continue to observe personal sanitary procedures such as frequent hand washing, sanitising etc. as we grapple with the impact of the virus

Remember to stay tuned to any official BIMAP media/site for updates
